PC BOARD (Component Side View)

Refer to the schematic diagram for the values of resistors and capacitors.

PC BOARD (Foil Side View)

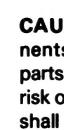

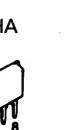

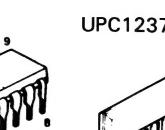

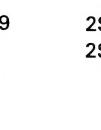

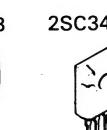

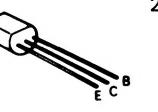

CAUTION: For continued safety, replace safety critical components only with manufacturer's recommended parts (refer to parts list). Δ Indicates safety critical components. To reduce the risk of electric shock, leakage-current or resistance measurements shall be carried out (exposed parts are acceptably insulated from the supply circuit) before the appliance is returned to the customer.

DC voltages are as measured with a high impedance voltmeter with no signal input. Values may vary slightly due to variations between individual instruments or/and units.

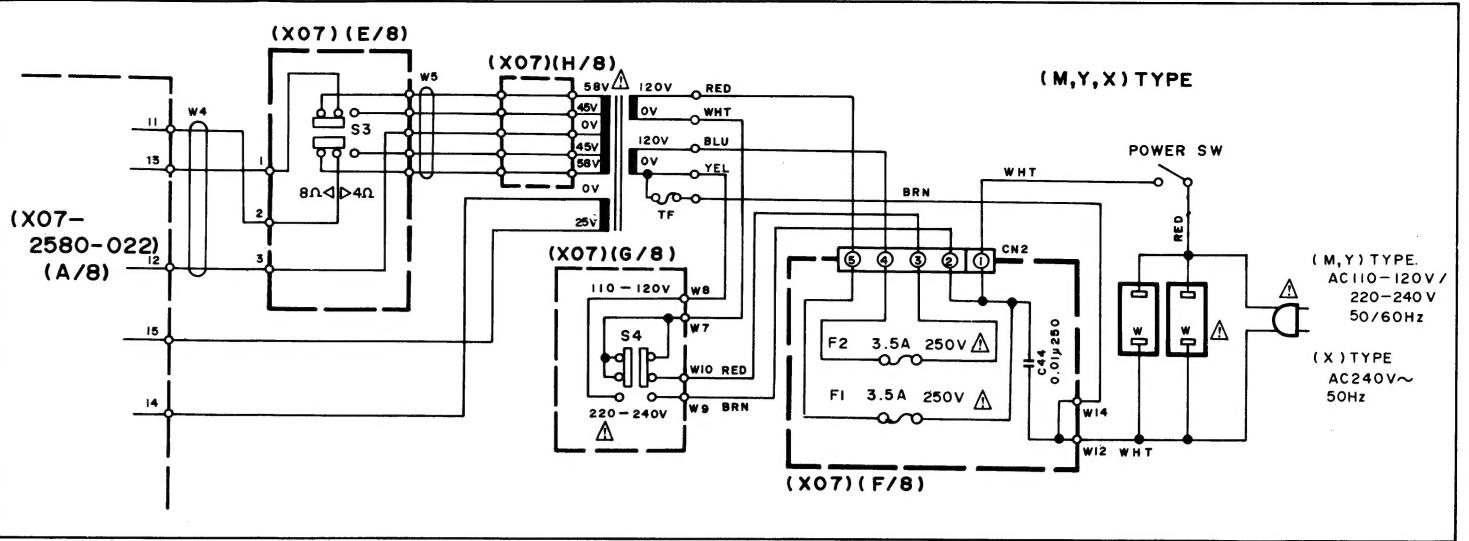

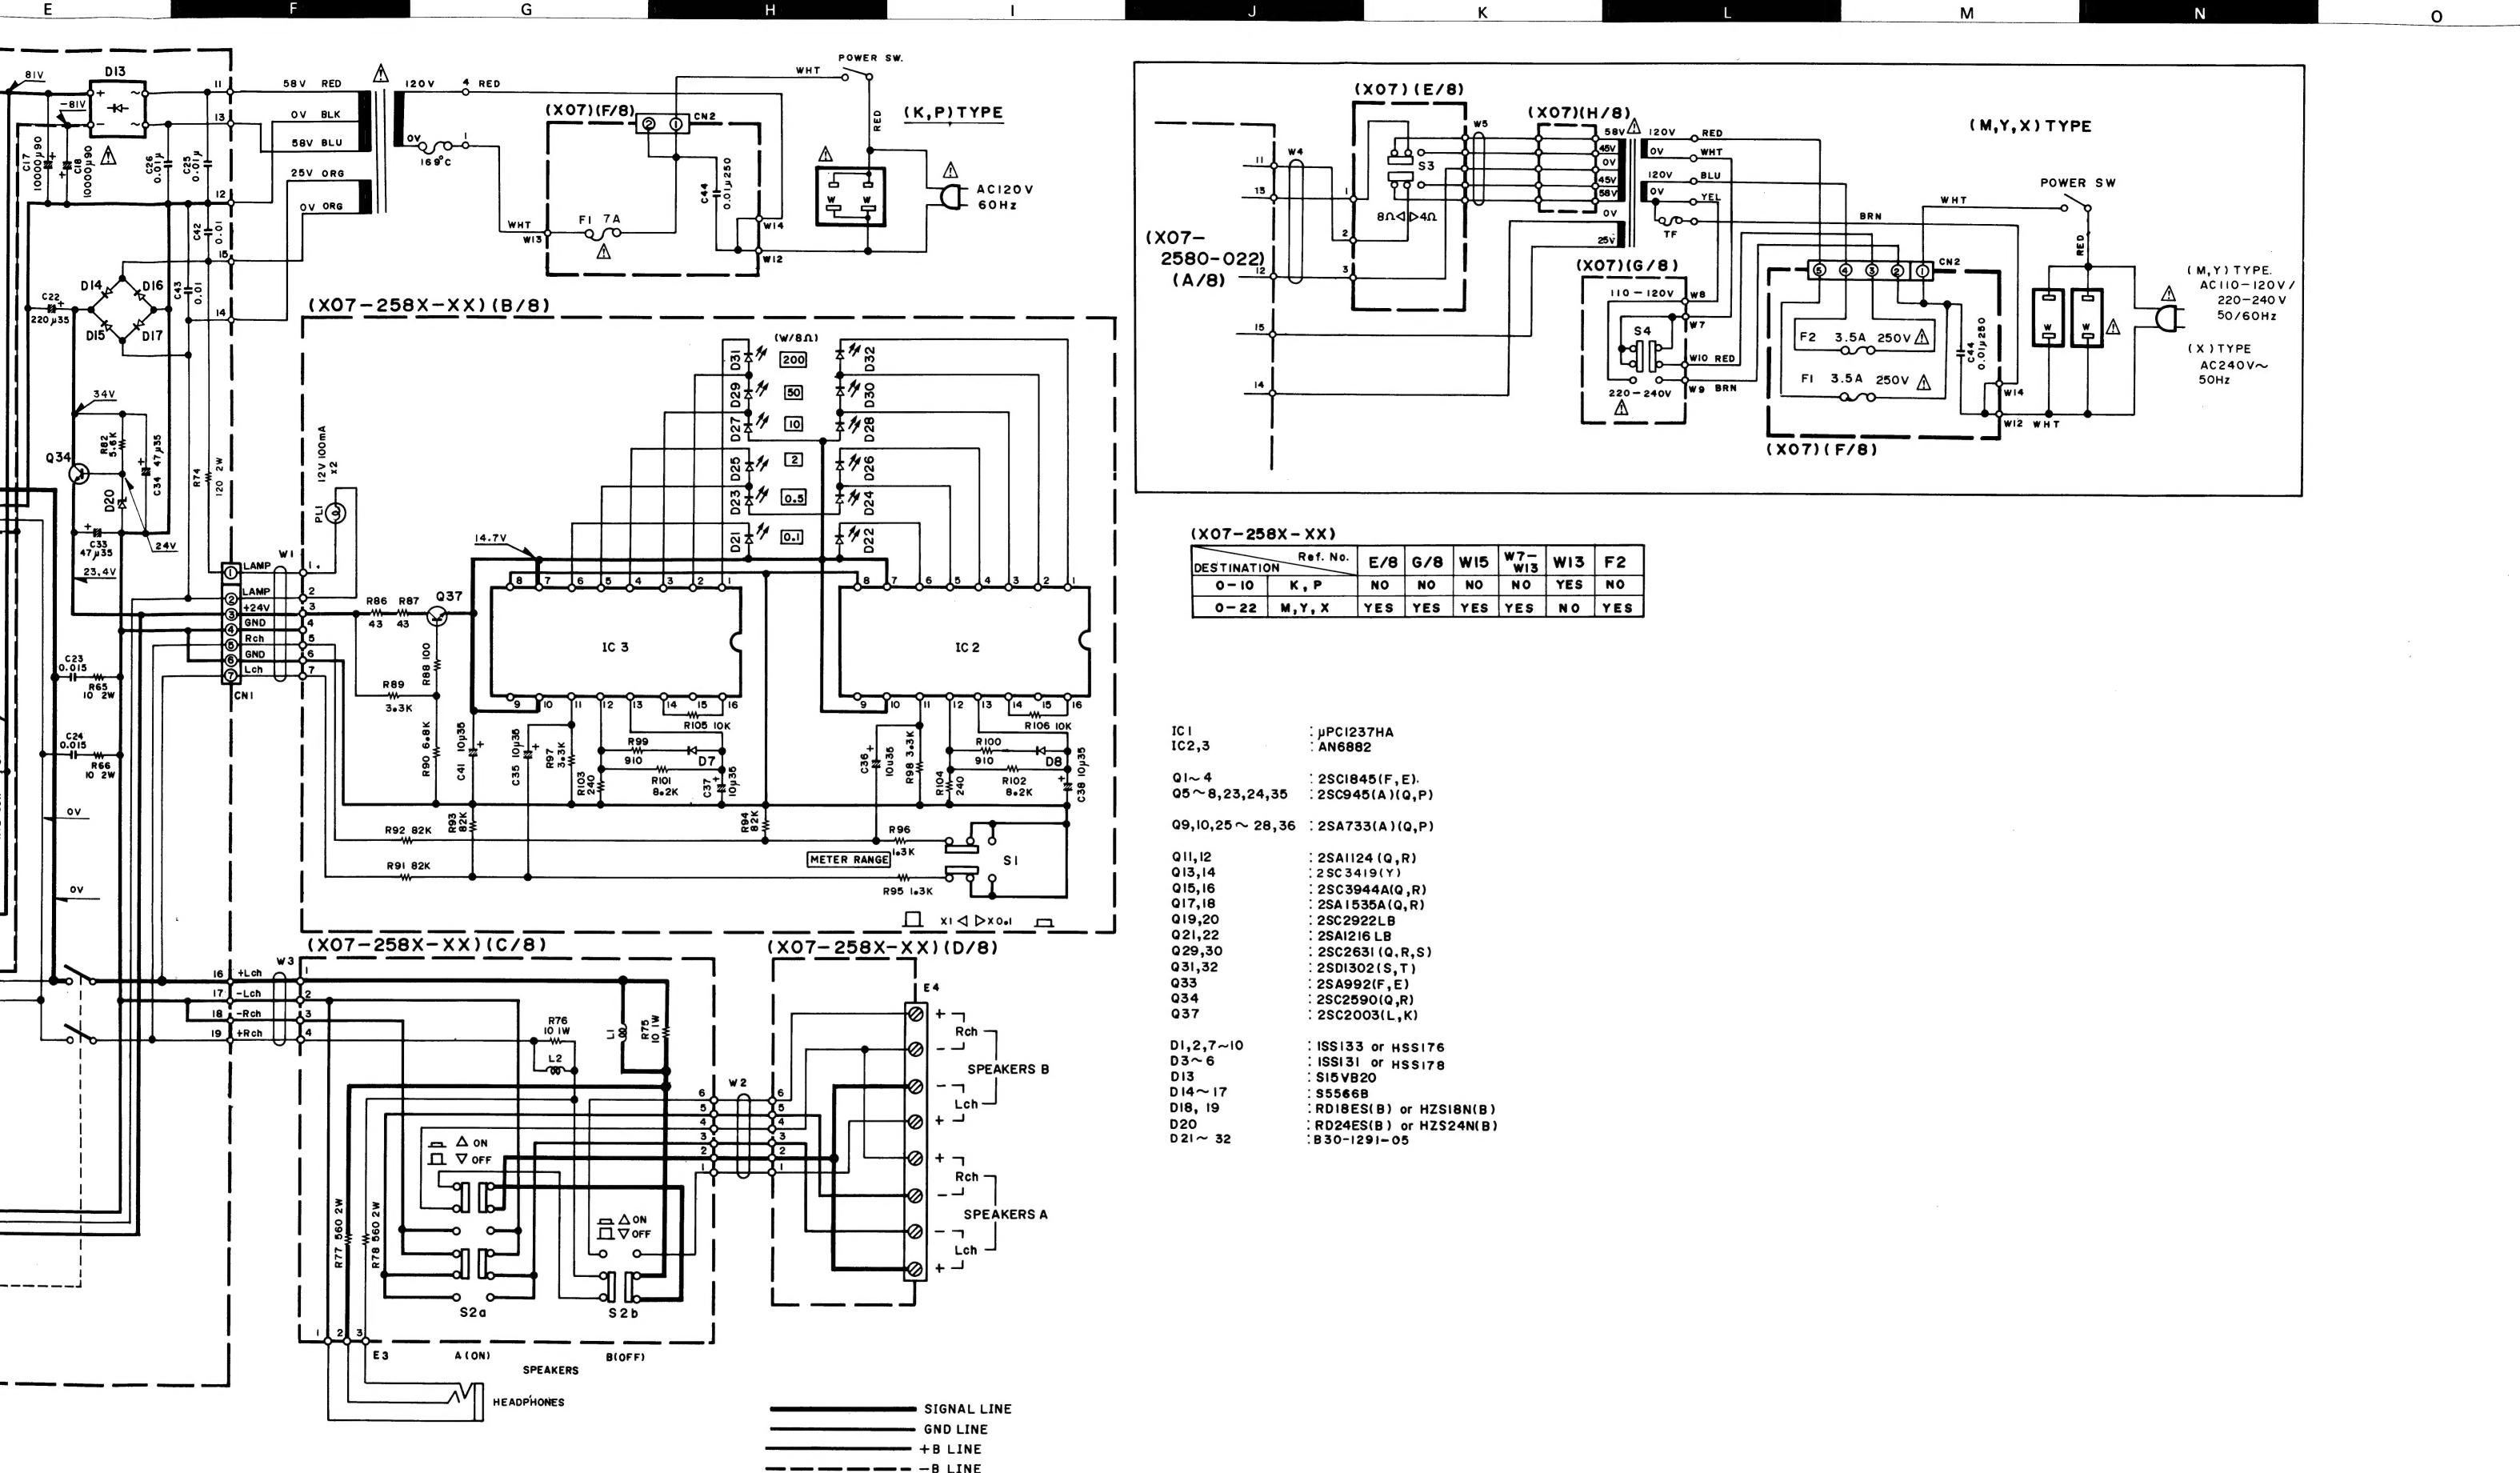

Les tensions c.c. doivent être mesurées avec un hauté impédance sans signal d'entrée. Les valeurs férir légèrement du fait des variations inhérentes et aux instruments de mesure individuels.
